WHAT MAKES ME SPECIAL?

HOW TO DRAW YOUR LITTLE MOCKINGBIRD

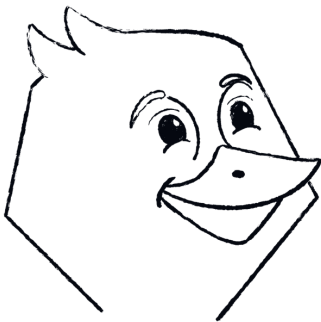

1

- Draw a large hexagon (a shape with six sides).
- Make the top slightly rounded and add two small triangles on top for the mockingbird's feathers.

2

- Add the beak using two small triangles.
- Then draw a tiny hole on the beak for the nose.

3

- Draw the mockingbird's eyes and eyebrows to give your bird expression and personality!

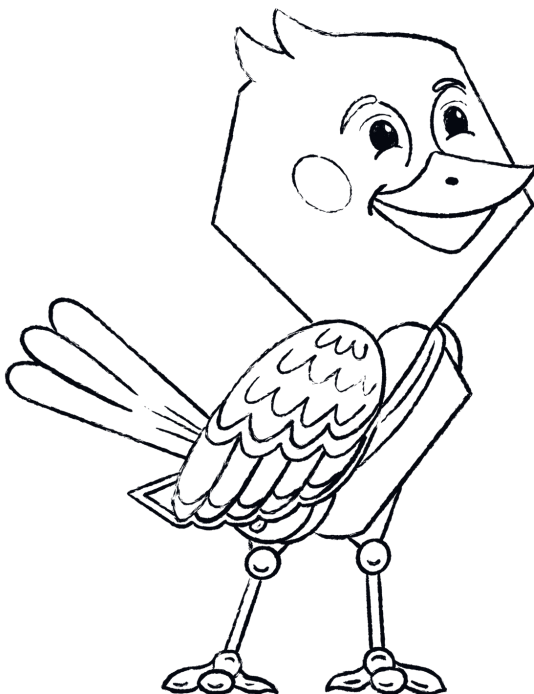

4

- Draw the wing.
- You can copy the pattern from the book or create your own unique feather design!
- Add the shoulders, chest, and bag strap across the body.

5

- Add the legs, knees, and feet.
- Finish your mockingbird by adding the tail feathers and rosy blush cheeks.
- Color!
